'Stay Safe Online' Checklist for Students

🔐 Account & Device Security

- **Enable Multi-Factor Authentication (MFA): Always turn on 2FA (Two-Factor Authentication) for your university portals, Gmail, and Instagram. A password alone is no longer enough.**
- **Audit App Permissions: Regularly check which apps have access to your Microphone, Camera, and Contacts. Delete "cleaner" or "battery saver" apps that often act as spyware.**
- **Use a VPN on Campus/Public Wi-Fi: Avoid accessing bank accounts or sensitive student records on open canteen or hostel Wi-Fi without a trusted VPN to encrypt your data.**

💸 Financial & UPI Safety

- **PIN is for Sending, Not Receiving: Remember that you never need to enter your UPI PIN to receive money or a refund. If someone asks you to "Scan and Enter PIN" to get a prize, it is a scam.**
- **Set Daily Transaction Limits: Use your bank's mobile app to set a reasonable daily limit for UPI and international debit card transactions to minimize potential loss.**

📱 Social Media & Communication

- **Verify Before You Click: Be wary of WhatsApp forwards promising "Free Government Laptops" or "Instant Part-time Jobs." These are often phishing links designed to steal session cookies.**
- **Secure Your 'Digital Footprint': Set your social media profiles to 'Private' and avoid sharing real-time locations or photos of your admit cards/ID cards which contain sensitive QR codes.**
- **Identify 'Digital Arrest' Scams: Be aware that no law enforcement agency (CBI, Police, or Customs) will ever contact you via Video Call or ask you to stay on a call for "investigation."**

🚨 How to Report Cybercrime

If you or a friend falls victim to a scam, speed is critical (especially for financial fraud to trigger a 'Golden Hour' reversal).

- **National Helpline: Call 1930 immediately to report financial fraud.**
- **Web Portal: File a formal complaint at cybercrime.gov.in.**
- **Local Support: Contact your nearest Cyber Cell or the Internal Complaints Committee (ICC) if the issue involves online harassment or cyberstalking.**
